-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

### **DETAILED ACTION**

This application contains claims directed to the following patentably distinct species of the claimed invention:

IA. An electro-optical device comprising a light shielding layer between the data lines and the pixel electrodes (Suggested claims 1, 3-8, 12, and 21)

IB. An electro-optical device with transparent conductive shield between the pixel electrodes and the data lines (Suggested claim 9)

Applicant's specification provided discloses that these two are distinct (see [0045] of US Publication No 20050029521).

IIA. Electro-optical device with horizontal/vertical protrusions protruding from the main body (Suggested claims 11, 14-15 see figs. 5-8)

IIB. Electro-optical device with surrounding portions at least partially surrounding the semiconductor layer from the main line portions at positions which are separated from the channel regions by a predetermined distance in a second direction in plan view (Suggested claims 13, and 22 see figs. 9-12)

IIC. Electro-optical device with inside-groove portions which are provided inside grooves in which are etched in the substrate and cover at least a part of the channel region from the sides (Suggested claims 16-17 see figs. 13-16)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species between IA and IB and between IIA, IIB, and IIC for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, none are generic however claims 18-19 will be examined regardless of the species elected.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phu Vu whose telephone number is (571)-272-1562. The examiner can normally be reached on 8AM-5PM M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Kim can be reached on (571)-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
